

SCOLEFIN[®]
general purpose

Ravago presents

SCOLEFIN[®]

Utilizing only prime raw materials with the best combination of PP base and a wide variety of different stabilizations.

With the experience that Ravago provides and the experts on plastic solutions, this brand of prime quality materials can serve many different applications independent of colors, specifications and needs. Wide portfolio of many different characteristics, Scolefin[®] is the prime PP compound that will fulfill all customers' needs.

Prime Scolefin[®] PP compounds provide:

Excellent surface finish

Scratch resistance compounds

Low odour and fogging

Optimized mechanical properties

Easy flow

UV resistance

Long term thermal stability

Color matched on request

Scolefin[®] general purpose - product portfolio

Grade name	Product description	Density	MFI
		[g / cm ³]	230° / 2,16 Kg [g / 10min]
		ISO 1183	ISO 1133

General purpose			
53 G 25	PP Copolymer, Glassfibre	1,14	13
12 T 20	PP Copolymer, talc	1,05	0,6
24 T 10	PP Homopolymer, talc	1,23	3
24 T 20	PP Copolymer, talc	1,23	2
51 T 10	PP Homopolymer, talc	0,97	23
31 G 23	PP Copolymer, Glassfibre	1,01	9
32 G 12	PP Copolymer, Glassfibre	1,03	4
33 G 12	PP Copolymer, Glassfibre	1,12	3

High quality Prime Compounds

Scolefim® PP compounds forms just part of an extensive portfolio of high quality plastics compounds from Ravago. Ravago has been manufacturing compounds for over 50 years and it is this experience that allows converters and end users to have the confidence to specify our products. The prime portfolio consists of the following brands:

Scolefim®	PP	Sicoklar®	PC
Ravamid®	PA6, PA66	Sicostirolo®	PS
Mablex®	PC / ABS	Polyfast®	ASA
Sicoflex®	ABS	Verplen®	ASA

Scolefim PP® compounds

Scolefim® PP compounds offer the end user a broad range of solutions via a wide product portfolio that includes:

Unfilled black, colored and natural grades	Elastomer modified
Talc or CaCO3 filled (5-70%) black/natural	UV and heat stabilized
Glass fibre reinforced (5-50%) black	MFI range from 1.5 to 40 g/10min
Combined filling	Tailor made compounds

The extended knowledge of Ravago in compounding makes the Scolefim® PP the best solution for a wide variety of applications. The combination of additives gives to the Scolefim® great characteristics that can be applied to:

AUTOMOTIVE	Cowl vent grill / water deflector	Headlight housing	NON AUTOMOTIVE	Garden furniture
	Wheel arch liner	Bumper mount		Artificial wood profiles
	Filter housing	Inlet manifold		White goods parts
	Under body parts	Toolbox		Parts of appliances
	Battery trays			

The Ravago Group is a leading international supplier of plastics and rubber to customers and end-users in almost every corner of the world. In 1961, long before plastics recycling became fashionable, Ravago pioneered the reprocessing of industrial plastic waste and its conversion into a new raw material source.

Ravago Group is active in the compounding, distribution, recycling and resale of plastics and rubber. Today, with more than 55 years of market presence, Ravago ranks as one of Europe's oldest and most prominent plastic enterprises.

Whilst high quality recycled polymers have been finding their way into non visual automotive applications for some time, visual parts have been always produced from prime polymers.
